- Power support: High Power PoE
- Quick and easy installation
- Quick and easy installation

Description

The LevelOne BOH-1400 is a PoE indoor/outdoor protective enclosure for LevelOne box cameras. It features a built-in heater and fan that controls the temperature of the enclosed camera, for -20°C to 50°C harsh environments, with IP66 weatherproof and IK10 vandal proof, for indoor/outdoor high security surveillance. It also offers a built-in Power over Ethernet (PoE) module allowing you to power BOH-1400 using 100% PoE power. No more hassle with crimping and running wires. Just Plug and Play and you'll have enough power to run the fan, heater and camera from a single power source. * This product does not work with regular PoE equipments. Use only with LevelOne POI-4000 High Power PoE Injector or FSW-0513 4-Port High Power PoE Switch.
